EDUCATION

Bachelor in Technology (B.Tech)

University of Engineering & Management, Jaipur
Computer Science Engineering,
CGPA-7.65

06/2019 – 06/2023

Higher Secondary Certificate (XII)

DAV Public School, Hazaribagh
PCM,
Percentage-63.7

02/2017 – 03/2018

CORE COMPETENCIES

Agile Practitioner | CI/CD | Statistical analysis | Cloud Computing

PROJECTS

Student Attendance using OpenCV

- Developed an automated attendance system utilizing facial recognition technology to track attendance of 5+ individuals simultaneously.
- Implemented robust facial recognition algorithms achieving a recognition accuracy of 95%.
- Spearheaded development of a cutting-edge system guaranteeing top-notch security and accuracy, while maintaining a false rejection rate (FRR) of less than 2% to optimize attendance tracking efficiency.
- Designed a reporting module generates comprehensive attendance reports and allows users to download attendance data for a period of 12 months.

Detection Using OpenCV

- Implemented deep learning algorithms to develop and deploy 3 detection models: Face, Pose, and Hand.
- Surpassed exceptional accuracy, attaining an average precision of 75% in accurately detecting both images and video streams.
- Virtual Painter application utilizes hand tracking and gesture recognition and hand gestures ranging from 0 to 100 levels for volume control.

Olympic Data Analysis

- Designed and implemented an end-to-end ETL pipeline on Azure for Olympic data analysis.
- Composed Seamless ingesting diverse data sources, performing complex transformations, and loading structured insights into Azure SQL Database.
- Leveraged Azure Data Factory, Azure Data Lake, and Databricks for efficient data orchestration and transformation, enabling data-driven decision-making by stakeholders.

SKILLS

Azure (DevOps, AzureML) | **Python** (Pandas, NumPy, Matplotlib, Seaborn) | **Version Control** (Git, Github)

Database Management (PostgreSQL, MongoDB) | **Object Oriented Programming** | **Operating System** (Linux, Windows)

Machine Learning (PyTorch, Scikit-Learn) | **DevOps Tools** (Selenium, Jenkins, Docker) | **Apache Spark**

CERTIFICATES

- Machine Learning 
- Python For Data Science
- SQL for Data Analysis
- IBM Cloud Computing

ACHIEVEMENT

- Achieved rank under 1000 in CodeChef two times among 17000+ participants.
- Attained a 5-star rating on Hackerrank, showcasing consistent performance.
- Engaged in a series of AI/ML summits, immersing latest advancements, breakthroughs, and industry trends in Artificial Intelligence and Machine Learning.
- Volunteered in college events.

COURSEWORK

Machine Learning | Deep Learning | Data Structures and Algorithm | Operating Systems | Computer Networks
Data Mining and Warehousing | Artificial Intelligence | Software Engineering | Database Management System
Big Data Analytics
